PROFILE

Aspiring Web Developer with a passion for creating dynamic and user-friendly websites. Proficient in HTML, CSS, and JavaScript, with a strong foundation in responsive design and front-end frameworks like React and Bootstrap. Eager to leverage my problem-solving skills and creativity to build innovative solutions that enhance user experience. Committed to continuous learning and staying up-to-date with industry trends. A collaborative team player with excellent communication skills, ready to contribute to projects and grow within a forward-thinking organization.

VOLUNTEERINGES

Webmaster

SheDevs

2024-current

- Website Maintenance: Regularly update and optimize website content, ensuring all links are functional and information is accurate.
- Technical Support: Troubleshoot and resolve technical issues related to website performance and user accessibility.
- Content Management: Collaborate with team members to create, edit, and publish engaging content that aligns with the organization's goals.
- SEO Optimization: Implement SEO best practices to enhance website visibility and improve search engine rankings.
- Analytics Monitoring: Analyze website traffic and user behavior using tools like Google Analytics to inform data-driven decisions and strategies.
- User Experience Enhancement: Conduct usability testing and gather user feedback to identify areas for improvement in site navigation and design.
- Security Management: Monitor website security, implement measures to protect against threats, and ensure compliance with data protection regulations.
- Collaboration with Developers: Work closely with developers to plan and execute website upgrades, ensuring smooth integration of new features and functionalities.

Scratch Teacher

Uncommon.org

2024-current

- Instruction Delivery: Teach coding fundamentals through interactive sessions, ensuring students understand concepts such as algorithms, loops, and conditionals.
- Hands-On Projects: Guide students in creating their own projects, encouraging creativity and problem-solving skills while applying coding principles.
- Student Assessment: Evaluate student progress through quizzes, project assessments, and presentations, providing constructive feedback for improvement.
- Classroom Management: Foster a positive and inclusive learning environment, promoting collaboration and teamwork among students.
- Technical Support: Assist students with technical issues related to the coding platforms and troubleshoot any challenges they encounter.
- Resource Development: Create and curate supplementary materials and resources to support student learning and enhance engagement with coding concepts.
- Skill Workshops: Conduct mini-skill workshops focused on specific coding techniques or projects to deepen students' understanding and capabilities.
